Inflatable Stand Up Paddle Board***

Release of Liability, Claim Waiver and Assumption of Risk Agreement

Release and Waiver of Claims Agreement

In consideration of your use of this product, you hereby agree to the following, to the fullest extent permitted by law:

1. To waive any and all claims that you have or may in the future have against Naish International, a division of Nalu Kai Incorporated, or any of its agents, resulting from use of this product and any of its components; and
2. To release Naish International, a division of Nalu Kai Incorporated, or any of its agents from any and all liability from any loss, damage, injury or expense that you or any users of this product may suffer, or that your next of kin may suffer, as a result of the use of this product, due to any cause whatsoever, including negligence or breach of contract on the part of Naish International, a division of Nalu Kai Incorporated, or any of its agents, in the design or manufacture of this product.

Arbitration

In further consideration of the sale to you of this product and any of its components, you hereby agree to submit to binding arbitration any and all claims, which you believe you may have against Naish International, a division of Nalu Kai Incorporated, or any of its agents, arising from the use of any of the Naish International, a division of Nalu Kai Incorporated equipment. The arbitration shall be pursuant to the rules of the American Arbitration Association.

Arbitration shall be commenced within one (1) year from the date on which any alleged claim first arose. Further, the arbitration shall be held in Maui, Hawaii unless otherwise mutually agreed to by all parties. The submission to the American Arbitration Association shall be limited and the arbitration award may be enforced by any court of competent jurisdiction.

Binding Effect of Agreement

In the event of your death or incapacity, this Agreement shall be effective and binding upon your heirs, next of kin, executors, administrators, assigns and representatives.

Entire Agreement

In entering into this Agreement, you are not relying upon any oral or written representations other than what is set forth in this agreement and User's Guide.

Assumption of Risk

By purchasing, using and assembling this product, you are agreeing to:

1. Be bound to the terms set forth below; and
2. Require anyone using this product to be bound by such terms.

If you are unwilling to be bound by these terms, return this product before use for a full refund.

Use of this product and any of its components involves certain inherent risks, dangers and hazards, which can result in serious personal injury and death. In using this product you freely agree to assume and accept any and all known and unknown risks of injury while using this equipment. The risks inherent in the sport can be greatly reduced by abiding to the Warning and Safety Precautions listed in this User Guide and using common sense.

Warning and Safety Precautions

General Warnings:

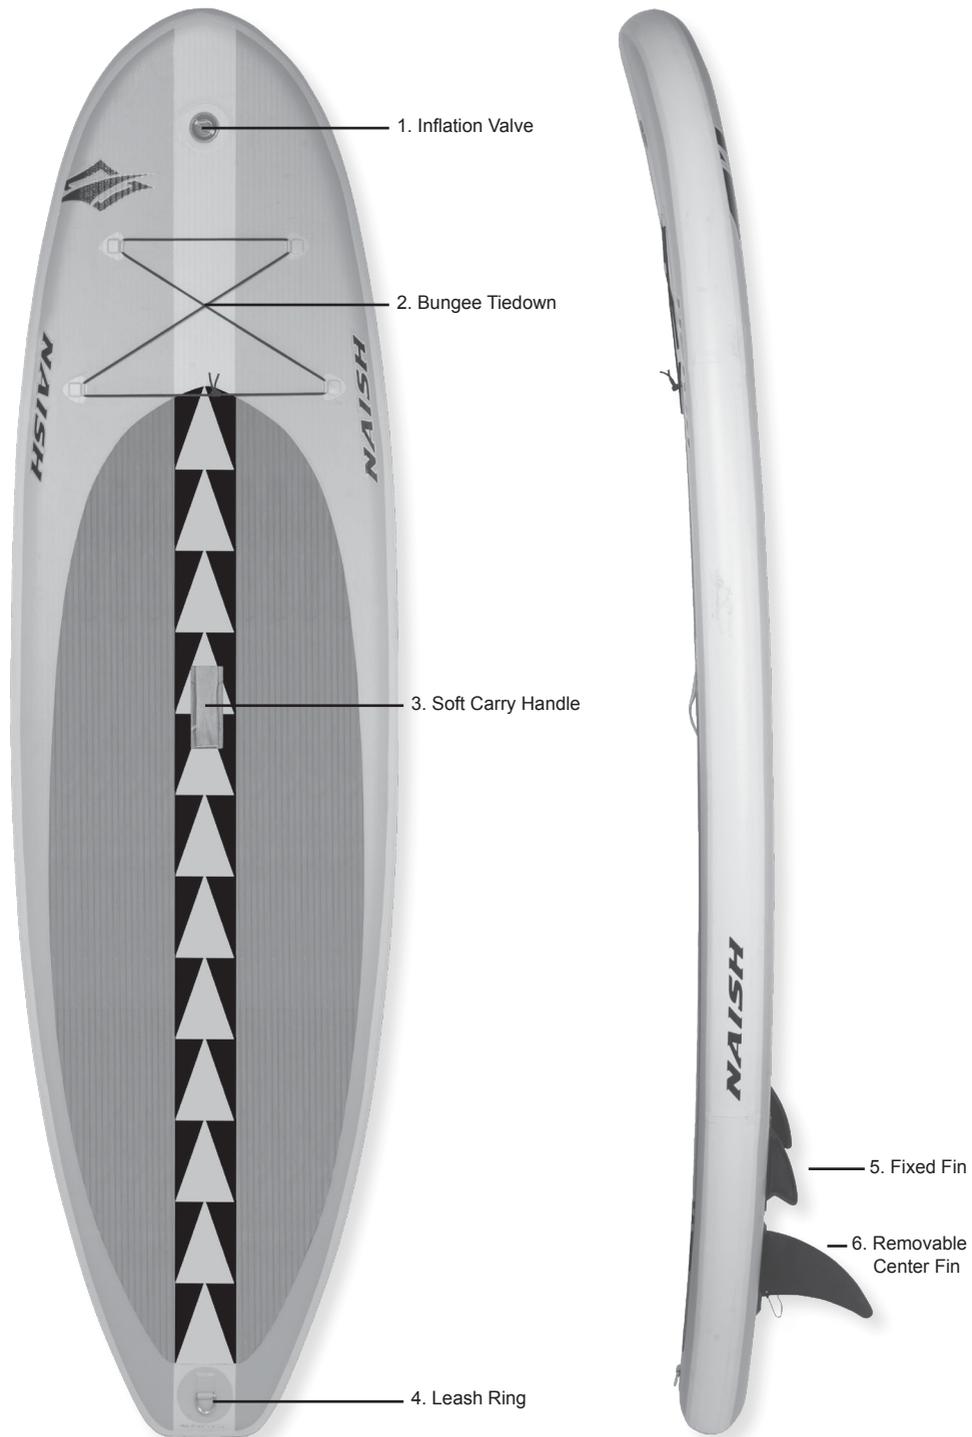

1. Stand-up Paddling is a dangerous sport. Use of this product exposes the user to unexpected risks, dangers and hazards.
2. Always use extreme caution when using this product. Never act in a careless manner when using this product. Misuse of this product may result in serious injury or death.
3. Only use this product if you are in good physical health, and know how to swim.
4. You are responsible for your own safety and the safety of others around you when using this product.
5. If you are under the age of 18, you must have a legal guardian read these warnings and safety precautions. Do not use this product without adult supervision.
6. Do not use this product if you are under the influence of alcohol, drugs or medications.

Important Safety Rules:

1. Before using this product, the user should take lessons from a certified school. This product should not be used by anyone who is not experienced with stand-up paddling.
2. Always wear a Coast Guard Approved personal flotation device when using this product. This product is not a personal flotation device.
3. Never use this product without a proper surf leash. A loose stand-up board in the water is extremely dangerous to you, and everyone around you. Failure to use a surf leash may result in serious injury or death.
4. Examine your surf leash after each use, and replace it if you see any sign of wear.
5. Always wear a helmet and booties when using this product.
6. Always paddle with an experienced partner when using this product.

Weather Condition & Location Warnings:

1. Always observe Coast Guard rules and regulations when using this product.
2. Never use this product in offshore wind conditions.
3. Never use this product in more than 10 knots of wind. Using this product in windy conditions may result in serious injury or death.
4. Use caution when carrying this product. Carrying the board in windy conditions may result in serious injury to yourself and others around you.
5. Never use this product in thunderstorms and lightning conditions.
6. Never use this product in conditions that are beyond your ability (such as, but not limited to, high surf, riptides, currents, or river rapids).
7. Never use this product near other boat traffic, or watercrafts.
8. Never use this product near crowded beaches or waters.

Assembly Instructions / Inflation / Deflation

Inflate your board with the Naish pump included with your board. This pump will have the hose and adapters to fit the valves on this board.

The Inflation Procedure:

1. Choose a smooth and clean surface to unfold your board.
2. Unscrew the valve cap.
3. Push button in and turn approximately 90 degrees so it is in the "OUT" position.
4. Insert the pump hose end piece and inflate until you reach the required pressure.
5. After inflation, tighten all the valve caps (clockwise). Only the valve(s) cap can ensure final AIR TIGHTNESS.
6. To release air from the side tubes and bottom floor tube, remove the valve cap (1) and push button (2) in and turn approximately 90 degrees so it is in the "IN" position.

Valve Diagram

Maximum air pressure for this produce is 14 psi/.965 bars

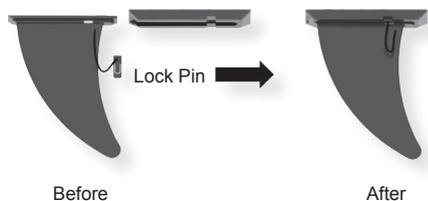

DO NOT INFLATE BEYOND 14 PSI/.965 BARS

Do not use an air compressor. It will result in damage to the board, and will void all warranties.

If you leave your board exposed to the hot sun, check the pressure and deflate it slightly. Otherwise, the board may become over inflated and stretch the material. The ambient temperature affects the tube's internal pressure; a variation of 1°C/ 1.8°F causes a variation of the pressure in the tube of +/- 4 mBar (0.06psi)

Removable Center Fin

This removable center fin can be installed anytime whether the board is fully inflated or deflated. After the fin is installed, push the lock pin in the fin base hole so the fin will stay in place.

Before

After

Note: The curvature of the fin must be pointed towards the back end of the board.

Maintenance

1. To deflate the board, remove the valve cap from the valves in the board.
2. Clean and check the board as well as all the accessories.
3. Make sure the board is completely dry before putting it away.
4. Make sure that no sand or gravel remains inside the board or between the hull and the inner chambers. This could result in abrasion or even punctures while storing the board.
5. Roll it up from the opposite end of the valves (so remaining air can escape from the valves).
6. When storing your inflatable, keep it in a clean and dry place.

Whenever you take your board out of the water and deflate it, allow time for it to air out and dry. Neither the skin/hull or the inside chambers will suffer from water damage, but stagnant water could cause mildew and foul odor.

How to Repair Small Punctures

Check that the board is fully deflated and lies flat.

1. Prepare a round patch no less than 3 inches or 7 centimeters in diameter.
2. Clean the patch and the area surrounding the leak with alcohol.
3. To contain excess glue, use masking tape to tape off the area around the patch.
4. Apply 3 thin, even coats of repair kit adhesive to both the surface of the board and the patch. Wait 5 minutes between each coat.
5. After the 3rd coat, wait 10-15 minutes before applying the patch. Use a hand roller to apply the patch evenly. Pay special attention to the edges to ensure a quality seal.
6. Wait 24 hours before re-inflating.

- Perform all of your repairs in a well-ventilated area.
- Avoid inhaling toxic vapors.
- Avoid contact with the skin or the eyes.
- Keep all repair materials (glue, solvents, etc) away from the reach of children.
- The repairs on the welds must not be glued. Only the manufacturer of the board can perform repairs on the glued seams themselves.

Warranty Policy

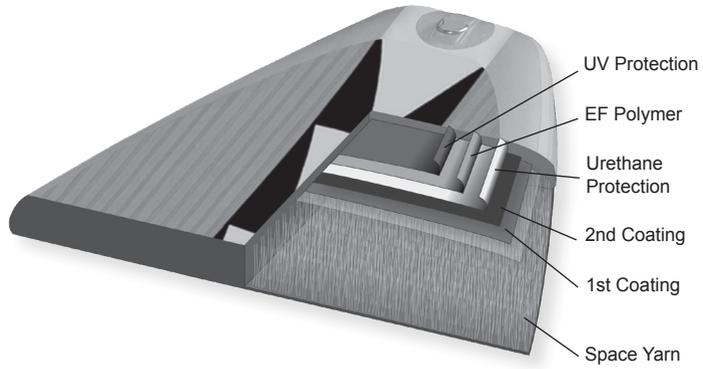

Naish warrants this product to be free from major defects in material or workmanship to the original purchaser for a period of one (1) year from the date of purchase. This warranty is subject to the following limitations:

1. The warranty is valid only when the product is registered online at www.naishsup.com within seven (7) days from the date of purchase.
2. The warranty is valid only when this product is used for normal recreational activities and does not cover products used in rental or school operations.
3. Naish will make the final warranty determination, which may require inspection and/or photos of the equipment, which clearly show the defect(s). If necessary, this information must be sent to the Naish distributor in your country with prepaid postage. Product can be returned only if a return authorization number is given in advance by the Naish distributor. The return authorization number must be clearly labeled on the outside of the package, or it will be refused.
4. If a product is deemed to be defective by Naish, the warranty covers the repair or replacement of the defective product only. Naish will not be responsible for any costs, losses, or damages incurred as a result of loss or use of this product.
5. This warranty does not cover damage caused by misuse, abuse, neglect, normal wear and tear including, but not limited to, punctures, damage due to excessive heat exposure, damage caused by improper handling and storage, damage caused by use in waves or shore break, board breakage caused by falling or crashing in surf conditions, or damage caused by anything other than defects in material and workmanship.
6. This product must not be modified and/or fitted with a motor.
7. This product must not be used in excess of the manufacturers recommended maximum load capacity.
8. This warranty is void if any unauthorized repair, change or modification has been made to any part of the equipment.
9. The warranty for any repaired or replacement equipment is good from the date of the original purchase only.
10. The original purchase receipt must accompany all warranty claims. The name of the retailer and date of purchase must be clear and legible.
11. There are no warranties that extend beyond the warranty specified here in.

This product is designed in accordance with standards for a specific use. Any modifications or transformations higher than that indicated by the manufacturer could result in serious risks for the user and will void the warranty.
